

## Careers Excellence Seminar 6

### Excellence in early career-related learning: how can challenging stereotypes support primary pupils to successfully transition into secondary education and beyond?

10:30am-12:00pm | Wednesday 12<sup>th</sup> March 2025 | Live streamed from The Wellcome Collection

Career-related learning (CRL) in primary schools is about broadening pupil's horizons, challenging stereotypes and helping them develop the skills and sense of self that will enable them to reach their full potential. CEC seeks to enable primary educators, secondary Careers Leaders and educators, employers and the wider sector to think about this systematically and in the context of the curriculum. We want all education settings to consider the necessity of starting early, particularly with regards to challenging stereotypes, and how existing systems can support this goal.

The expert panellists will reflect on the significance of starting early for laying the foundations and smoothing transition between primary and the careers education system in secondary schools.
